Swimming Upstream
Lessons COA Faculty Can Learn in Reaching Out to Secondary Education

Brian Warnick and Rudy Tarpley
Agricultural Systems Technology and Education Department
Utah State University

Learn Who are Today’s Students
- Suburbanite- two-generations removed farm kids
- Traditional agriculture kids are often discouraged
- Many sensitive to environmental issues

Beyond Judging the
Junior High Science Fair!
- Invite yourself into the classroom
- Bring flash, splash, and boom!
- Connect to their world with your science

Curriculum Impacts
- Become the technical expert
- Contribute realistic and up to date ideas
- Jump start scientific inquiry
- Influence state standards for science

Recruit the Next Generation of Scholars
- Plant the seeds of knowledge early
- Show the diversity of agricultural careers
- Teachers could become part of your graduate program

Advisory Committee Service
- Contribute to change
- Expand the schools knowledge base
- Challenge the mid-kids curriculum

Concurrent Course Enrollment
- College course in the high school curriculum
- Establish a college relationship in high school.
- Prepares students for the rigor of university studies.
